CHILDLIFE'S VISION

Every Child Within 30 Minutes of World Class Emergency Care

24/7 - Free

Emergency Rooms
at Tertiary Care Hospitals

Telemedicine Satellite Centers
at Secondary Care Hospitals

(as of August 14, 2023)

SAVING CHILDREN IN

200+

HOSPITALS ACROSS
PAKISTAN

TELEMEDICINE SATELLITE CENTRES

2/3rd of Pakistani population lives outside of major cities with access to secondary care only, at district and tehsil hospitals.

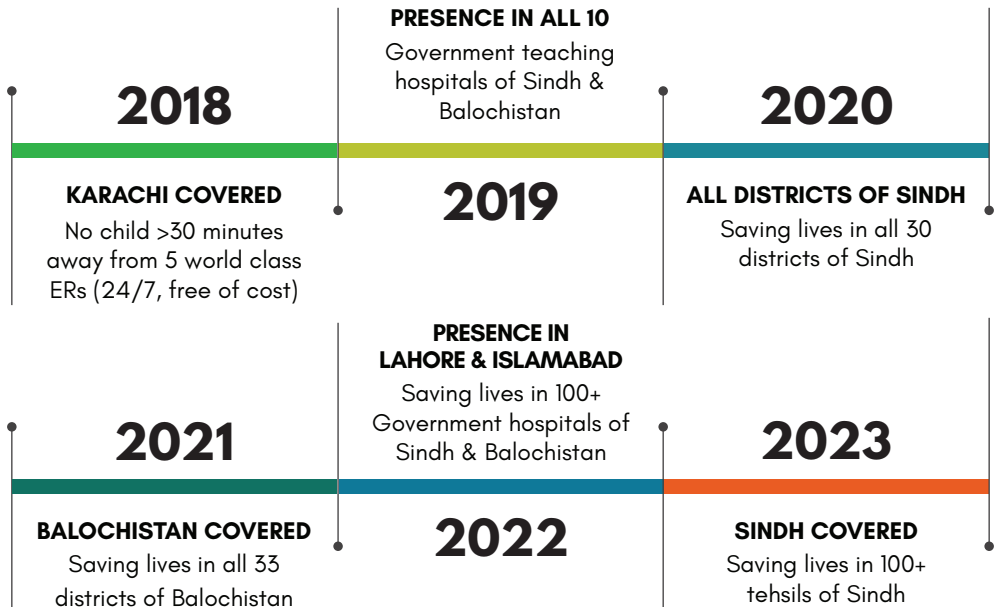

ChildLife has established an innovative **telemedicine children's emergency network** that now spans across all tehsils of **Sindh** (100+), and districts of **Balochistan** (33) and **Punjab** (36).

Now children in rural areas **have access to emergency care** from child specialists, **24/7** and **free of charge**. This saves life through better diagnosis and early treatment. Moreover, it prevents the financial burden (debt trap) on parents who otherwise would have to take their ailing children to a major city for treatment.

ChildLife provides **life-saving treatment** to millions of children annually – free of cost. It manages 24/7 **Children Emergency Rooms & Telemedicine Satellite Centers** in **200+ public sector hospitals** across Pakistan, in partnership with the government.

ChildLife is PCP & ISO certified and audited by A.F. Ferguson & Co.
