# CHILDLIFE REACHES MAYO HOSPITAL LAHORE

ChildLife & Mayo Hospital have signed an agreement to modernize Pediatric Medical Emergency Room. Mayo is the largest hospital of Pakistan with 2800+ beds & treats 150,000 children per year in its ER. Mayo is affiliated with King Edward Medical University, the oldest medical institution in Pakistan. Inshallah, we will replicate this model across all teaching hospitals in Punjab.

# TELEMEDICINE SATELLITE CENTRES

ChildLife Foundation reached another milestone in 2020 by providing Children Emergency Services in all 30 districts of Sindh via its Telemedicine Satellite Centers. Now every child in Sindh has access to a public hospital in his or her own district, where ChildLife provides tele-consultation, administers medicine, and refers them to the closest Children's ER.
