

We are pleased to share with you our Annual Report for the year 2022, titled "Umeed-e-Nau".

Healthcare is not a privilege but a right. Unfortunately, many families cannot afford healthcare for their children in a country with an estimated 55 million people below the poverty line. **ChildLife Foundation's presence in 75+ Hospitals promises hope and prosperity in Pakistan's 75<sup>th</sup> year of Azadi.**

ChildLife Foundation heals children and protects underprivileged households from abject poverty. We give hope for survival to families that would otherwise go completely bankrupt if they had to pay for quality healthcare services for their children. ChildLife has given hope to these families for the past 12 years. Our expanding network makes health accessible to children from all corners of the country. **More than 4.3 million patients have been treated free of cost** at state-of-the-art Children's Emergency Rooms (ER) and Telemedicine Satellite Centers (TSC) with well-trained doctors and staff under an internationally acknowledged world-class emergency care system.

You would be glad to know that our Annual Report 2021 won Best Corporate Report Award, jointly presented by ICAP and ICMAP. Please read our this year's report to know how we are working today to set up a secure foundation to provide accessible and affordable healthcare for a better future for all our children, because they are Pakistan's Umeed-e-Nau.

CHILDLIFE WISHES YOU A

*Happy New Year!*

Stepping into this new year, we pray you receive countless blessings.  
Thank you for showing continuous compassion to the children of Pakistan.

### Expansion of Telemedicine Control Room

ChildLife is rapidly growing its network of Telemedicine Satellite Centers (TSCs) in its pursuit to reach every child, and to manage this increasing network of 100+ sites, an extension to our Telemedicine Control Room will be operational in January 2023, which will increase the number of telemedicine doctors from 16 to 24 and enable our doctors to provide 1,000+ consultations per day.

ChildLife's Telemedicine Model has been a significant contributor in lowering the provincial under 5 child mortality rates in recent years; from 104/1000 live births in 2014 to 46/1000 live births in 2018-19 in Sindh. Insha'Allah, we will replicate this model in all 450+ district and tehsil government hospitals of Pakistan by 2030.

CHILDLIFE TREATS

# 100,000 CHILDREN IN MAYO HOSPITAL, LAHORE

SINCE FEBRUARY 2022

Alhamdulillah, with your generous support, ChildLife has reached another milestone of treating over 100,000 children in its children's Emergency Room (ER) at Mayo Hospital, Lahore. Mayo is ChildLife's 11<sup>th</sup> ER and started providing quality medical care to children of Punjab in February 2022.

Quality emergency care is a right for every child. With every child being treated, we get one step closer to our mission of making Pakistan child-safe.

ChildLife Presents

**75+** Abstracts at ESEM22

ChildLife made Pakistan proud at the regional Emergency Conference in UAE. ChildLife's clinical team presented 75+ abstracts and 7 presentations at the 8<sup>th</sup> Emirates Society of Emergency Medicine Conference 2022 (ESEM22), held in Abu Dhabi in December 2022. ESEM is an annual conference which includes a comprehensive overview of the most recent developments in emergency medicine.

It was an opportunity to share how ChildLife continues to treat 1.5 million children annually in its ERs & Telemedicine centers across 100+ govt. hospitals - free of cost 24/7, Alhamdulillah! ChildLife is proud of its Clinical team who contributed towards the development of global emergency medicine sector through their abstracts. This zeal for continuous development from our team will contribute greatly towards realizing our mission of making Pakistan child-safe a reality by 2030.
