

**Donations made in the months of July & August
will be matched by planting trees to celebrate Independence**

ChildLife Foundation is taking an initiative to create a healthy environment for our children by planting a tree against any donation made in the month of July & August to celebrate Independence. Now your donations will not only save children's lives but also provide shade for anxious parents waiting in government hospitals.

CORONA RISK ASSESSMENT DESKS

With the support of our donors we were able to establish Risk Assessment Desks in all 10 ChildLife Emergency Rooms to separate the children visiting with corona symptoms from the patients suffering with other ailments. In this connection the efforts of our front line workers are commendable as since the onset of this pandemic the total numbers of children checked were 7500+ out of which 20% were found to be corona suspects and directed for further tests and treatment.

Corona is still on the rise in Pakistan. Help us fight it.
