

Saving Children in 300+ Hospitals across Pakistan

Alhamdulillah, ChildLife has scaled its **emergency care network** of children's Emergency Rooms (ER) and Telemedicine Satellite Centers (TSC) across **300+** public hospitals in Pakistan.

"**Child mortality** ranks quite high compared to other causes of mortality in Pakistan due to the abysmal quality of emergency care for children and the financial constraints faced by the public. "The solution is simple, improving and making quality emergency care accessible to children, 24/7 and free of charge.

Over the last decade, ChildLife has been working towards this solution. Support from both public and private sectors has helped us make **life-saving care** available to **2 million children across Pakistan annually**, 24/7 and free of cost.

Help ChildLife realize the dream of making Pakistan child-safe.

ChildLife Expands its Telemedicine Network to Khyber Pakhtunkhwa

After covering Sindh, Balochistan and Punjab, ChildLife has now expanded its telemedicine network to reach children in **Khyber Pakhtunkhwa** [Abbottabad, Peshawar, and Swabi].

These Telemedicine sites now have a ChildLife deployed **registered nurse** and are equipped with a **high-definition camera** and an **IP phone**, connected to our Telemedicine Control Room in Islamabad. ChildLife expert doctors are available 24/7 in our TM Control Room to provide consultations to the on-ground doctors and nurses in these 3 public secondary care hospitals of KP.

ChildLife will soon establish Telemedicine Satellite Centers (TSCs) in all districts of Khyber Pakhtunkhwa, Insha'Allah.

12 Fundraising Events held in USA in September 2024

"We would like to thank our **Pakistani diaspora supporters in the US** for once again selflessly and generously stepping up to provide **free treatment to 2 million children** of Pakistan this year, Insha'Allah."

THANK YOU

Seattle – Fresno – Phoenix – Austin – Dallas – Detroit – Boston –
Yardley – Fremont – Chicago – New York – Houston

FOR MAKING IT POSSIBLE

Your generous contributions will help us continue to provide **life-saving treatment** to the sickest and poorest children in our Emergency Rooms and Telemedicine Satellite Centers across Pakistan, 24/7 and free of charge.

ChildLife Launches Pediatric Emergency Webinar Series

ChildLife has launched a webinar series on Pediatric Emergency for pediatricians working in the public sector across Pakistan.

The first three sessions held covered the following topics:

- Congenital Heart Diseases in Children
- Updates on Malaria in Children
- A Paradigm Shift: Management of Pediatric Dehydration

Through this series, ChildLife aims to **foster collaboration** with the public sector by contributing towards the **capacity building** of government doctors and ensuring that they are well-versed with the latest practices and evolving needs of pediatric emergency care.

From Fear to Hope Story of Moosa

Moosa, a 5-month-old boy, was rushed to the children's Emergency Room at Children Hospital, Multan by his frantic parents as he had a high fever and was struggling to breathe.

Upon arrival, Moosa was immediately admitted to the resuscitation room where he was assessed and diagnosed with pneumonia. The medical team recognized the urgency of the situation and advised for IV medications and VAYU Bubble CPAP, to stabilize and to improve his respiratory distress.

After 24 hours of intensive treatment and monitoring, Moosa's condition improved. His fever was controlled, and vitals started to stabilize, reducing his distress level.

Moosa's parents were relieved to see their son out of critical condition and on the road to recovery. They expressed their gratitude to the ER staff for their compassionate care and timely treatment.

Moosa's story serves as an inspiration to all, showcasing the power of hope and perseverance, and stands as a testament to the life-saving impact of the quality emergency care provided by ChildLife Foundation.
