

15 Years of Saving Young Lives

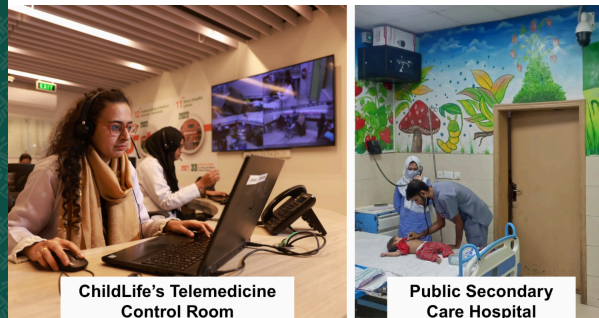

ChildLife Foundation proudly celebrates **15 years of transforming pediatric emergency care** in Pakistan. From a bold vision in 2010 to a nationwide movement today, we now operate **14 state-of-the-art Children's Emergency Rooms** and a **network of 300+ Telemedicine Centers** in public hospitals across the country.

Every life saved is a testament to our unwavering mission: **to deliver free of charge, 24/7 emergency care to every child, regardless of where they were born, where they live or what they can afford.**

Over the past decade and a half, we've set new benchmarks in pediatric emergency medicine, combining technology, compassion, and clinical excellence to serve millions of children.

As we step into the future, ChildLife is more committed than ever to **reaching every child in need**, bridging critical care gaps, and safeguarding the **future of Pakistan, one child at a time.**

We are deeply grateful to our supporters and donors. Without your unwavering support, this journey and impact would not have been possible.

ChildLife's Telemedicine Control Room

Public Secondary Care Hospital

1 million Children Reached through Teleconsultations

ChildLife Foundation's pioneering **hub-and-spoke Telemedicine Network** has now provided over **1 million pediatric teleconsultations** across **300+ government secondary care hospitals** in rural Pakistan.

Operating 24/7 from our centralized **Telemedicine Control Rooms**, ChildLife's pediatric emergency specialists support and guide on-ground medical staff and government doctors, ensuring that even in the most remote districts, children receive **timely, expert care** without the need to travel long distances.

What makes this model truly transformative is its **measurable impact**: each teleconsultation delivers an estimated **46% value addition** in the form of improved diagnosis, timely treatment decisions, lifesaving interventions, and capacity building of government doctors and nurses through real-time mentorship.

By merging **technology and pediatric expertise**, ChildLife is not just filling gaps, **we are redefining emergency care access for children in Pakistan**, ensuring **no child** is left behind due to geography or poverty.

Innovation in Action: Transforming Pediatric Emergency Care with Bubble CPAP

At ChildLife-managed Emergency Rooms, every second counts when it comes to saving critically ill children. To meet the urgent need for rapid, non-invasive respiratory support, **ChildLife has implemented Bubble Continuous Positive Airway Pressure (Bubble CPAP)** across all its Emergency Rooms nationwide.

Bubble CPAP has demonstrated a strong survival benefit in pediatric patients with respiratory distress, particularly those suffering from pneumonia and related complications. This **simple, cost-effective, and lifesaving intervention** now plays a central role in the early stabilization of high-acuity patients, **reducing the need for mechanical ventilation and improving clinical outcomes.**

Many children arriving in **respiratory distress** are treated with **Bubble CPAP**, demonstrating its **strong impact as a life-saving intervention** and a testament to our team's vigilance. Early initiation of Bubble CPAP is key. By deploying this intervention promptly, **especially in critical cases**, we

not only stabilize children faster but also **reduce the need for escalation to intensive care.**

More than a tool, **Bubble CPAP is a symbol of ChildLife's commitment to innovation, compassion, and evidence-based pediatric emergency care.** Because every child deserves a fighting chance, no matter where they come from.

**MARK OF EXCELLENCE
CHIDLIFE SCORES
99.2%
IN PCP CERTIFICATION**

ChildLife Foundation has been awarded an outstanding **99.2% rating** by the **Pakistan Centre for Philanthropy (PCP)** in its latest certification renewal, an endorsement of our unwavering commitment to **governance, financial transparency, and operational excellence.**

This achievement is more than just a number, it reflects **the rigor of our systems, the integrity of our processes,** and the **impact of our mission** to deliver lifesaving emergency care to children across Pakistan.

From evidence-based clinical protocols to disciplined resource management, every aspect of ChildLife's work is rooted in **accountability, trust, and measurable outcomes.**

The PCP rating reaffirms that **every rupee entrusted to us drives real change,** saving young lives and strengthening public healthcare, where it's needed most.
